**Detailed Action**

***Drawings***

The Examiner accepts the drawings filed on August 7, 2001.

***Allowable Subject Matter***

Claims 2-11, 13-24, and 26-32 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention generally discloses investment that covers inflation by trading that includes inflation. The prior arts of record include the teaching of Leon (US 6,052,673) and McDonald (US 2004/0019558). Leon teaches investment management in relation to inflation factor. On the other hand, McDonald teaches loan data collection for rental property. However, the prior arts of record fail to teach, singly or in combination, employing the couple value, the future inflation data and the estimated future interest rate data to calculate a current cash value of the at least one future inflation-related adjustment of the coupon value or a portion of the coupon value for a future year wherein inflation-related adjustment provides inflation cover for the coupon value. In addition, the prior arts of record fail to teach or suggest presentation of a purchase price to the user at which the at least one future annual inflation value  $inf_i$  for the coupon value CV, or a portion thereof, can be purchased and the program enables the processor to track trading in the at least one future annual inflation value wherein the least one future annual inflation value comprise an asset.

The examiner agrees with the applicants' remarks presented in the Response of January 12, 2006. The prior arts of records taken singly or in combination fail to teach or fairly suggest the claimed invention. Therefore, the examiner favors the allowance of claims 2-11, 13-24, and 26-32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
